Passage 1

The date palm is a wonderful tree. People eat dates. They feed them to their animals. They use the leaves and the wood to build houses. They use the wood to build boats. They make baskets from the leaves. They burn the other parts of the tree to cook their food. The date palm came from the Middle East. Seven thousand (7,000) years ago, people in Syria and Egypt ate dates. They made pictures of date palms on their stone buildings. Today date palms grow in the Middle East, parts of Asia and Africa, southern Europe, and other warm parts of the world. There are more than 2,700 kinds of palm trees. Most of them cannot grow in the Middle East because it is too dry. The date palm grows there very well. Hundreds of years ago, people in southern Europe and some Arab countries made pictures of palm trees and palm flowers on some of their buildings. Today we can see these pictures in art museums. Passage 2

Joe Richards finished school when he was 18, and then his father said to him. "You've passed your examinations now, Joe, and you got good marks in them. Now go and get some good work. They're looking for clever people at the bank in the town. The clerks there get quite a lot of money now."

A few days later, Joe went to the bank and asked for work there. A man took him into a small room and gave him some questions on a piece of paper. Joe wrote his answers on the paper, and then he gave them to the man. The man looked at them for a few minutes, and then he took a pen and said to Joe, "Your birthday was on the 12th of June, Mr. Richards?" "Yes, sir," Joe said. "What year?" the man asked.

"Oh, every year, sir," Joe said.
